# Where we have been

### SBI are currently on a journey to strengthen and grow their presence in the community, and have identified alumni at the core of this growth

### To understand how to increase alumni engagement with SBI, we conducted interviews, research and workshops

#### **INTERVIEWS**

Deloitte, in collaboration with SBI, conducted over six interviews with alumni, in addition to other alumni outside the SBI program

- **Community** There was a strong desire to be involved in a community and were very receptive to alumni groups *"I am all about community... Tell me what you need!"*
- Allocation of donations Alumni wanted to know where their donations were going
  - "I would like to see money spent on scholarships for HBCU colleges... and updates on their schooling"
  - **Engaging with me** Alumni leverage different channel platforms for different reasons (e.g., Facebook for events and news)

1. Hanover research on 5 trends driving university fundraising

2. Network for good program – networkforgood.com

3. Branding and messaging to drive donations from alumni study by Adam Grant

#### RESEARCH

Deloitte conducted research on alumni and charity programs across the world to identify key awareness and fundraising opportunities

- **Donation potential –** only 5 20% of alumni donate to their school once they have left<sup>1</sup> and typically make up ~25% of all education donations
- Donating online donating online increased by 12% over the past year<sup>2</sup>
- Social media Social media drives charity awareness and in driving donations, especially with females
- Power of volunteering 60 80% of donors also choose to volunteer locally in their communities<sup>4</sup>
- Clear mission donors are more likely to donate when they are clear of what the mission is and where the money is going (i.e., transparency)<sup>1</sup>
- Trust Donors are risk averse to donating, and so want to see success stories prior to committing<sup>3</sup>

#### WORKSHOPS

Conducted workshops with SBI stakeholders to identify core values and future needs of the organization

- Inclusive, grass-roots cooperative SBI embodies the inclusive grassroots community to welcome all alumni
- **Scale up** SBI wants to scale up and bring more programs across the community, within schools
- **Self sustaining** There is a desire to engage alumni as a key source of sustainability and growth
- **Impact** SBI focus on the ability to create big impact with minimal resources
- **The Arts** SBI has a deep-rooted history in the performing arts, with a need to "feed the student souls and spirits."
- College prep SBI are known for preparing students socioeconomically and socio-culturally for colleges
- Integration SBI wish to become more integrated into the school's curriculum

<sup>4.</sup> Double the donation - Nonprofit Fundraising Statistics [Updated for 2021]

### Our research also explored examples across the non-for-profit industry for inspiration on how to raise awareness and donations for SBI

#### Donation options

Charity water launched "The Spring"; a passionate and determined group of monthly givers on a mission to end the water crisis in our lifetime. They request monthly donations and provide updates on funding progress. (100% of funds go to water projects)

#### Power of story-telling

Humans of New York began as a photography project in 2010. The initial goal was to photograph 10,000 New Yorkers on the street. Along the way HONY begun to include quotes and short stories from their lives with 11M subscribers on Instagram.

#### Timing of campaigns

Movember fundraisers are a global community of fired up Mo Bros and Mo Sisters – aka rock stars making a difference in mental health and suicide prevention, prostate cancer and testicular cancer. Raising awareness every November by asking members to grow a moustache and donations.

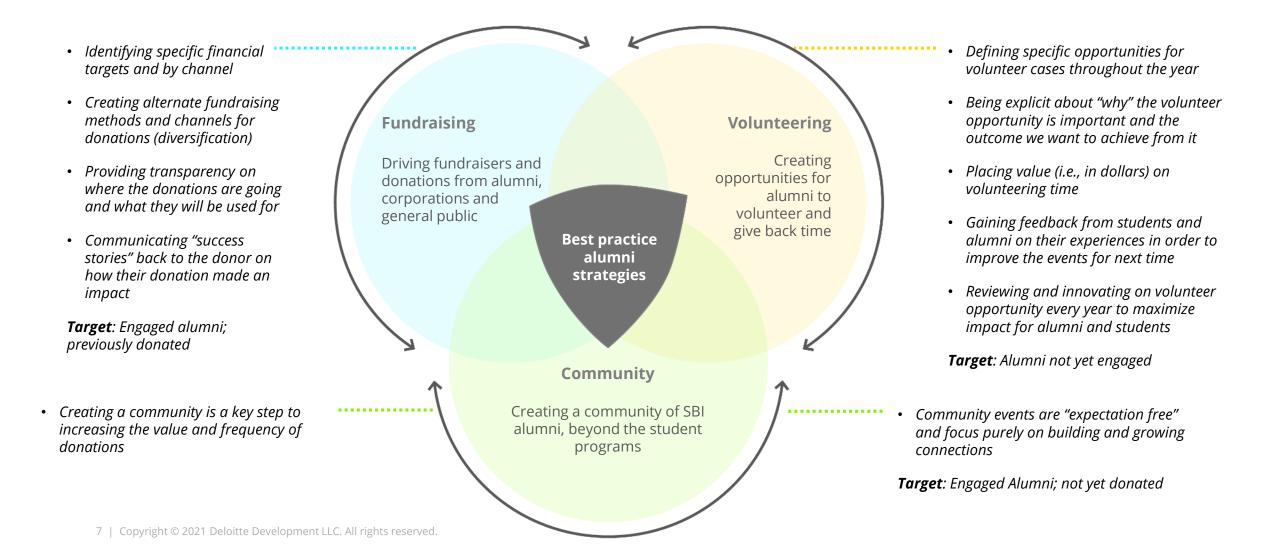

#### Social / community involvement

#icebucket challenge was one of the most successful social media campaigns that requested people take action, nominate a member to take action, raise awareness, donate money – and made it FUN! The ice bucket challenge has accelerated funding for ALS.

### Based on what we found, we uncovered that three pillars; fundraising, volunteering and community, set the foundation for every successful alumni program...

#### ... which tie back to a clear vision of SBI, about who you are, and what you stand for

- + Who we aim to support
- + We are all in this as "one"
- + Community / collaboration

Clear goal and objectives

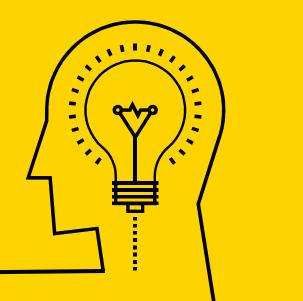

- Clarity on what "success" looks like
- Easy to understand

"Together with our dedicated members, students and alumni, Sound Business Inc will be an integral part of A. Phillip Randolph through a self-sustaining, scalable ecosystem that invokes pride and purpose to every single member "

Who we aim to help

Our audience

### Alumni Recommendations

#### Drawing inspiration from our interviews and workshops, we brainstormed opportunities to grow SBI across the three core alumni pillars

#### Fundraising

Build long-term sustainable partnerships in the community founded on a shared vision to open up more channels for funding

Ideas we explored:

- "Sponsor a student" donating a specific student for college support
- Subscription model fundraising (e.g., small monthly donations)
- Diversifying corporate / non-for-profit sponsorships through the Graduway platform
- · Creating tiers of sponsorships (bronze, silver, gold) for Corporates

### Explore partnerships to expand network

reserved.

#### **Develop collaboration and** awareness campaigns post events / donations

#### Volunteer

Integrate SBI alumni into the present-day community by offering opportunities to build relationships with SBI students and the greater A. Phillip Randolph ecosystem

Ideas we explored:

- Mentor programs between alumni and students
- Running non-arts educational workshops / events on current affair topics (e.g., voting)
- "Bring a student to work" day to expose students to the work environment after school

#### Community

Develop an inclusive grassroots cooperative through shared experiences and relatable stories that both students and other alumni can draw inspiration from

#### Ideas we explored:

- Student driven campaigns and programs for alumni run by students (e.g., student board)
- Identifying alumni "leaders" responsible for supporting and driving events
- Creating targeted alumni advisory groups, designed to solve alumni problems
- Connecting and organizing events with other school / work programs
- Volunteering to support SBI back-office activities (e.g., finance)

#### Launching 'My SBI Story'; the release of Alumni stories through top social platforms

**Developing a pipeline of volunteers** to support SBI volunteer days and programs

Deep Dive

#### **Fundraising**

#### Recommendation: Develop collaboration and awareness campaigns post events / donations

#### Example for corporate donations

#### OBJECTIVE

- Target 40-50% funding from corporates sponsors (that share SBI's vision)
- Secure \$5,000 \$10,000 per sponsor (preferably aim for multi-year funding)
- Drive 50% of corporate funding through Graduway platform (i.e. Alumni employers)

#### RECOMMENDATIONS

 Target local corporates and neighborhood establishments that share SBI's vision and have previously provided financial support to students from Harlem and its

surrounding communities CMA

SONY

- Leverage LinkedIn to communicate success stories back to the donors on how their donation made an impact. This can help lend credibility and encourage their peers, both corporates and non-corporates, to donate
- Look to establish partnerships with "like" organizations to build awareness and campaigns

education

All right

Alumni interviews indicated that alumni are willing to leverage their professional networks and connect SBI to their employers for donations. As part of Graduway platform uplift, collect data on alumni's interest in connecting SBI to their employers and/or professional networks

Leverage LinkedIn to communicate success stories back to the donors on how their donation made an impact

Would your employer be interested in supporting SBI in a monetary capacity, such as sponsoring an event, monthly donations towards SBI's operational costs?

Are you part of any professional organization? Would the organization be interested in supporting SBI?

Corporations care about their brand more than ever, and will find ways to communicate their commitment to the community through 3<sup>rd</sup> party partnerships

#### Volunteer

### Recommendation: Developing a pipeline of volunteers to support SBI volunteer days and programs

#### Community

### Recommendation: Launching 'My SBI Story'; the release of Alumni stories through top social platforms

#### OBJECTIVE

Use social media platforms as part of the inclusive grass roots initiative, by sharing weekly / bi-weekly posts that highlight one or more alumni's story of how SBI influenced their life, to continue to grow a supportive and engaging community

#### CHANNELS

#### **RECOMMEN**DATIONS

- Leverage existing interview contents to date, and continue setting up interviews targeting 2 per week, to recreate alumni narratives and post with 3 – 5 pictures of alumni including SBI experience
  - Posts can be anywhere from a few paragraphs to a minibiography, and should focus on impacts of SBI's inclusive, grass roots co-op, and performing arts
- Establish channel on **Graduway Platform for alumni to express interest** in being interviewed and included in SBI alumni Instagram posts
- Create a backlog of posts and begin releasing narratives bi-weekly, potentially increasing regularity of content flow if interest and participation increases

#### **CASE STUDY: HUMANS OF NEW YORK**

"It constantly amazes me how brave these people are, and how much they choose to disclose. ... You know why I think that is? Because so much of our life revolves around small talk. Weather, finances, things like that. And here comes somebody on the street really digging at the marrow of your life, and your experience. I think it's validating in a deep sort of way." – *Brandon Stanton, Author of Humans of New York* 

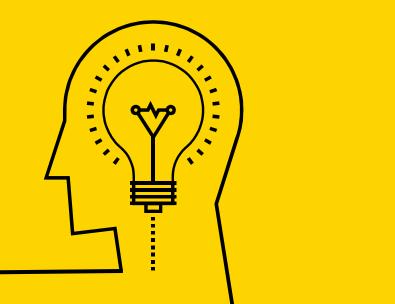

#### "...it's validating in a deep sort of way"

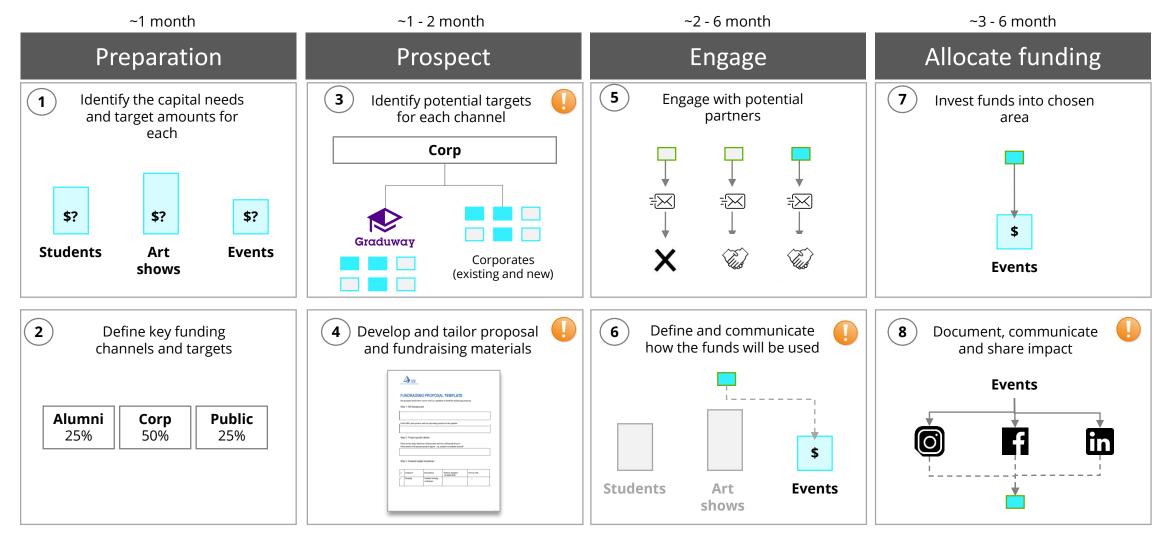

This post is part of a #quarantinestories series that began at the beginning of the pandemic. They share the story of a young African American woman growing up in an underserved community in Brooklyn who **overcomes adversity to achieve her dream of becoming a doctor** 

This post generated over half a million likes and more than 10,000 responses of admiration and encouragement

## What this means for SBI

### SBI should seek to increase the level of transparency of how donations are used; and generate campaigns in collaboration with corporates / partners

### SBI should develop a clear and cohesive fundraising proposal, that can be leveraged to target specific corporations / partners that would benefit from collaborating with SBI

### SBI today uses all platforms to message similar content ...

In reality, each platform targets a different subset of users and demographics, and should follow suit in serving various purposes

Instagram is a visual based platform to **share photos**, **videos and other visual content**, typically leveraged as a source for online shopping. **Dominant Users**: F / 25-49yrs

Instagram
 150 Followers

YouTube is a video sharing platform, people **can view**, **upload, rate, share and comment on content**, predominantly for entertainment purposes.

Dominant Users: F / 25-49yrs

Facebook is the most widely used platform, **typically leveraged to share written content / information. Dominant Users**: M+F / 18-30yrs

Most widely used and **effective source of information and communications channel**. Emails are more "intimate" than any other platform. **Dominant users**: M+F / 25yrs +

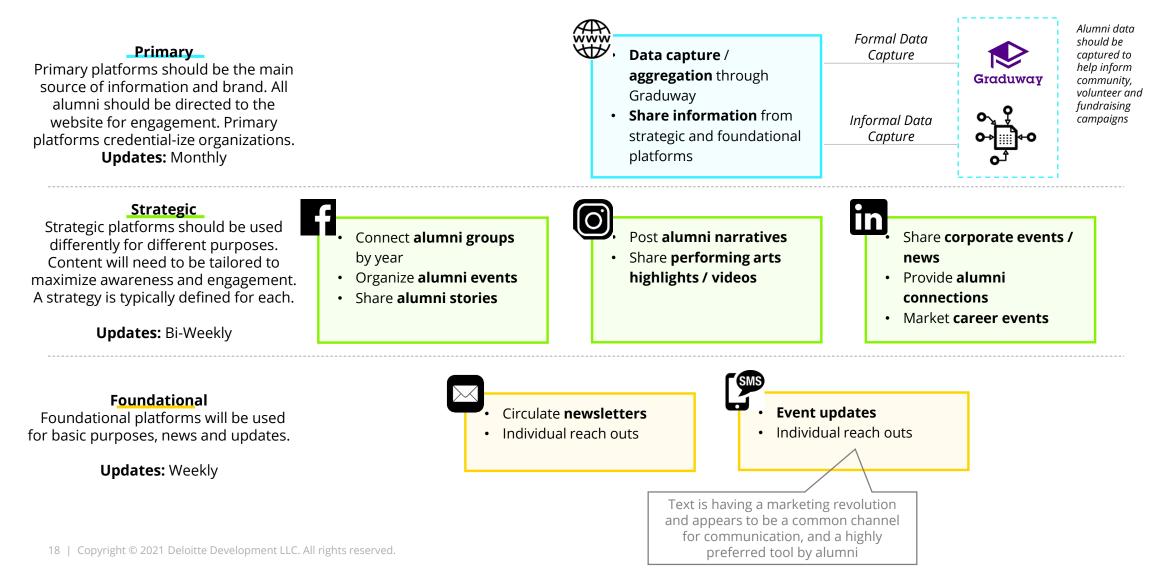

LinkedIn is a professional network platform, used **to find talent**, **market positioning and business marketing**. **Dominant Users**: M+F / 30-50yrs

Websites are perceived as the final credibility check for users. Websites are the **"face of the organization" and leveraged as the final destination to drive users towards action.** 

### We recommend establishing structured marketing channels for different platforms, targeting varying demographics and purposes

### We can leverage powerful stories and messages to share with our Alumni, all designed to engage them on an emotional level to drive change or certain behaviors

#### **STORIES OF THE PAST** CURRENT SUCCESS STORIES • SBI should tailor messages around the emotion they wish to invoke in their Communicate stories and experiences Success stories about recent Alumni alumni that allow Alumni to re-engage with and the support and impact SBI had their past and connection with SBI on reaching their goals • Each one of these emotions are when they were students powerful when attempting to create change or drive a certain behavior Key emotion to evoke: Key emotion to evoke: Pride Allocating a consistent story or message through a distinct social / lov / Nostalgia communication platform has been used by organizations to maximize impact on the consumer (e.g., Human FAMILY / COMMUNITY **"BE A PART OF THE FUTURE"** Rights Watch) Developing a sense of community and Outlining the challenges SBI face either family among the Alumni with the current currently or in future and the impact Alumni and past SBI students (e.g., a place they can make to be a part of that future (i.e. defining the missing piece of the puzzle can call home) needed to be successful) Key emotion to evoke: Key emotion to evoke:

Sense of belonging

Worthiness / Significance

When a story catches our attention and engages us, we are more likely to absorb the message and meaning within it than if the same message was presented simply in facts and figures

#### SBI should reach out to PR firms to help promote and share the SBI message

Example PR agencies to Target

| TARGET PR AGENCIES           | <ul> <li>5 – 10 NYC based agencies (10 – 100 employees)</li> <li>Run pro bono programs</li> <li>Aligned with SBI passion and purpose to</li> </ul> | praytell           |

#### Key elements to a brief:

- **1. Background** How did SBI form? What was the problem it was solving?
- 2. Mission / purpose What impact will SBI make in the world?
- **3. Goals** What is the challenge you need PR to help address?
- **4. The Ask** Is SBI looking for ongoing support, or support on an upcoming project / event? Are there any upcoming milestones, announcements, projects, events, or campaigns that SBI are specifically looking for PR support on? (*the latter is usually easier for an agency to commit to probono*)
- **5.** Audience Who is the key audience you need to reach via PR?
- 6. Budget if any.
- **7. Next steps** What does SBI want to see from the PR agency? Always request a follow up call!

We can take some time to walk through some "best in class" example proposals post this workshop if needed

### Creating a Vision for the Future

The mission of **Sound Business Inc.** is to foster systemic socio-economic change through grassroots community initiatives that are linked to a public high school

Building from the mission statement, we want to envisage an inspirational statement, that **defines the future vision of SBI**, considering 'where we want to go' and 'who we want to be' Carrying forward the grassroots community for educating, organizing, & mobilizing...

...these are the **key considerations** to take us into the future

How do you see SBI making the world a better place?

What do you envision when you think about the future of SBI?

What impact do you hope SBI has on your community? ...to continuously inspire

What inspires you?

How do you inspire others when you do ad-hoc fundraising?

How do you envision your grassroots community inspiring your students and future employees?

What do you imagine for the future of SBI as an organization?

What will the culture of SBI look like?

How will that play out in employees' lives?
